

Behold the power of collective thinking.

In this business, everyone knows that great people working together end up providing great windows and doors. That's why when we set out to design and build the best windows and doors in the industry, we focused on people first. People with advanced technical knowledge. People that know how to do things right the first time. But most importantly, people who realize that integrity and trust are not simply words, but a way of life. With more than 200 years of combined experience under our belts, you can clearly see our promise of quality and innovation in every window and door we make. Not to mention how we go about making them. To us, it's about creating an environment that brings out the best in everyone, and accepts nothing less. It's about doing things the way they should be done, not necessarily the way they've always been done. It's about giving back to our communities and the things that matter most. And it's about family – ours, as well as yours. At Wincore®, our philosophy is simple. It's not about being the biggest. It's about being the best. Because to us, that's the way it should be.

Grids

Choose from several patterns to enhance and complement interior rooms.

Colonial

Prairie

Perimeter

Hardware is color-matched to your door.

Features

- 1 Fusion-welded Sash Panels** Airtight mitered corners efficiently keeps air and water from infiltrating the home.
- 2 Reinforced Lineals** 12-gauge steel helps create a strong and resilient unit.
- 3 Chambered Profiles** Honeycomb chambers throughout the vinyl act as pockets of insulation to increase thermal efficiency.
- 4 Double-strength Tempered Glass** Strength and overall performance is multiplied.
- 5 Vinyl Threshold** Easy to clean and maintain.
- 6 Multi-Point Lock** Secures door at multiple points with one handle.

Steel Lock & Striker Provides long-lasting performance. *Not shown.*

Plated Steel Adjustable Rollers Ensures operating panels move smoothly and easily. *Not shown.*

Energy Performance

7700 patio doors feature standard Low E glass and an Argon gas-filled insulating glass unit. Low E glass helps maintain even temperatures inside the home in all climate conditions.
